SYMBIOSIS INTERNATIONAL (DEEMED UNIVERSITY)

Symbiosis International University was founded in 1971 by Padmashri & Padma Bhushan, Prof. Dr. S.B. Mujumdar, with a focus on fostering a global learning environment. The motto of the University is “*Vasudhaiva Kutumbakam*” - World is One Family.

FACULTY OF MEDICAL & HEALTH SCIENCES (FoMHS)

Faculty of Medical & Health Sciences (FoMHS), a proud constituent of SIU, is a conscious response to the growing concerns regarding healthcare delivery and education including training of healthcare professionals across all cadres. The FoMHS offers on campus fulltime and online education programs meant to professionally upgrade the healthcare professional. Through its unique, innovative, career oriented programmes, FoMHS plans to raise a cadre of professionals who would ensure delivery of optimum health care services with the ultimate objective of creating a healthy world.

SYMBIOSIS MEDICAL COLLEGE FOR WOMEN SYMBIOSIS UNIVERSITY HOSPITAL & RESEARCH CENTRE

With an objective of women empowerment and contributing to the requirement of more women doctors, Symbiosis has established this exclusive college under its Faculty of Medical & Health Sciences. It is the first fully residential Medical College exclusively for women in India. The annual intake is 150 girl students. SIU has launched Dr. Anandi Gopal Scholarship Scheme. This scholarship (full fee waiver for the entire MBBS program) is awarded purely on merit. SMCW is the first Medical College in the country to offer free medical education!

The Symbiosis Medical College for Women (SMCW) is located at the scenic campus of the Symbiosis International University at Gram Lavale, Pune. The medical college and its attached Symbiosis University Hospital and Research Centre (SUHRC) has state-of-the-art infrastructure and facilities. The faculty at SMCW and SUHRC has been drawn from the best across the country. SMCW thus endeavours to produce caring, compassionate and ethical female doctors.

SUHRC is a 900-bedded tertiary care, NABH accredited hospital. It has state-of-the-art infrastructure and facilities including Super Speciality Services in Cardiology, Neurology, Critical Care Medicine, Paediatrics (including NICU and PICU), transplant services, center for assisted living, and all-product Blood bank etc. The Radiology department has all the advanced radiological equipment. All theatres are 'modular' with 2-way data transfer facilities.

The hospital caters to the population in a radius around 40-50KM from SUHRC. It thus provides healthcare services to a daily outpatient load of approximately 1200 patients and maintains around 500 inpatient beds. The SUHRC provides top-quality clinical services, which are protocol-driven and evidence-based. The hospital is continuously expanding its super specialty services to meet the healthcare needs of the community. ETHICS with transparency of operations are accorded topmost priority.

All services at SUHRC are delivered free of charge. This includes outpatient and inpatient services, surgical treatments (including cost of consumables and disposables), and diagnostic services provided by the Central Clinical Laboratory (CCL) and Radiology dept.

*The first comprehensive hands on
Training Workshop on Hysteroscopy
in the Series*

SYMBISCOPE 2024

Hysteroscopy is an integral part of gynaecological endoscopy. With the advent of new equipment, there is a necessity for gynaecologists to understand basics and advances in hysteroscopy which deals with patients of common gynaecological conditions e.g. abnormal uterine bleeding, infertility, cancer etc. With the advancement of technologies, it is imperative that the practicing clinician stays abreast with the advances and regularly refresh their knowledge. This workshop will equip the learner with the necessary skill sets and competency to perform hysteroscopy procedures.

On successful completion of the workshop, the learner will be able to:

- Understand the normal uterine milieu.
- Understand common uterine abnormalities.
- Understand choice of appropriate instruments, distension media when dealing with normal & abnormal gynaecological conditions.
- Perform diagnostic hysteroscopy.
- Perform operative hysteroscopy for AUB, Polyp, Fibroid, Adhesiolysis, Cervical stenosis, Septum etc.

International Guest Faculty

Prof. Stefano Bettocchi

Global expert in Hysteroscopy,
Dept. of Obs. & Gynecology, University of Foggia, Italy

Dr. Milind Telang

Hon. Professor
Dept. of Obs. & Gynecology,
SMCW & SUHRC
Course Director

Dr. Neelesh Risbud

MD, DGODNB, FRCOG (UK)
Professor & Head
Dept. of Obs. & Gynecology,
SMCW & SUHRC

Dr. Kalyani Mahajan

MD, FMAS (Obst Gyn)
Associate Professor
SMCW & SUHRC
Faculty -in - charge
